ARMONY INVESTMENT FUND

Report on activities of the Board of Directors

Dear Shareholders,

For its first period of business, ARMONY INVESTMENT FUND (the "Fund") closed the period ending 31st December 2016 with EUR 28.3 million in assets under management with a return of 2.92%. The Fund was incorporated as a UCITS on 18th March 2016.

Change in Organisation

Since 1st February 2017, GAESCO GESTION SGIIC is the appointed Investment Manager of the Fund by KREDIETRUST LUXEMBOURG. However, the management fees remain constant as the Board decided to share the fee of 0.5% between GAESCO GESTION SGIIC and Fimarge on their Board Resolution dated 13th January 2017.

We are grateful to the shareholders for their continued business and trust in ARMONY INVESTMENT FUND. We will continue to work relentlessly to serve the shareholders' investment objectives for many years to come.

Investment Manager Report

For the period ended 31st December 2016, ARMONY INVESTMENT FUND, returned 2.92%.

A nearly double-digit gain for stocks obscures some of 2016's troubling features. China's concern, Brexit and the Trump's surprise election were clear pivot points. The new general belief is that Republican government will deliver economic stimulus, less regulation and lower corporate tax. However, this fiscal agenda has the potential to push the debt-to-GDP ratio above 100%, something that some may not be willing to accept, while the economy is essentially at full employment, equities are no longer cheap (trading at 17,1x future price to earnings ratio compared to a 25-year average of 15,9x) and the USD is too high, while Mrs. Yellen is raising rates. No one knows what's going to happen in the coming year, as usual, but what we know is that many things would have to change to lead us to take additional risks, in a context where the EU shows mixed growth signs, and it is facing a clear uncertainty in the financial sector, especially in Italy.

Portfolio Trades

Equities:

As far as we are concerned, we took equity positions from a conservative point of view, both regarding sectors and weight. We have been building positions in several companies which meet the following three conditions: Having some very clear niche activities, being managed by long term oriented management teams, and trading with an important fundamental discount. These are companies as Airbus, Axa, Caterpillar, Duerr, Fanuc, MTU Aero Engines, Nidec, or Toyota among many others. Nearly 40% of our equity portfolio comes from non-cyclical business, with high cash conversion ratios, with almost no debt, and mainly family conducted. In that sense, names included in portfolio were Bpost, Dr. Pepper Snapple Group, Medtronic, Oracle, BMW, Ontex Group, Amadeus, Freenet, or Richemont. Our aim is to keep these companies in the portfolio until the fundamental values are reached. Relating to the overall equities exposure, the idea is simply to reduce the stake from these levels as far as prices meet valuations.

ARMONY INVESTMENT FUND

Report on activities of the Board of Directors (continued)

Bonds:

We included US Treasuries with maturities ranging from 5 to 10 years, in order to set a certain hedge if a volatility episode comes up. Our credit portfolio was also conservative, always focused on shorter durations and high quality issues with investment grade or almost investment grade ratings, and based on our fundamental analysis.

We will keep our conservative point of view in the quarters ahead, and only discounts will encourage us to risk-on.

Luxembourg,

The Board of Directors

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the Réviseur d'Entreprises agréé

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the Réviseur d'Entreprises agréé, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the Réviseur d'Entreprises agréé considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Report of the Réviseur d'Entreprises agréé (continued)

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of ARMONY INVESTMENT FUND and of its sub-fund as of 31st December 2016, and of the results of its operations and changes in its net assets for the period from 18th March 2016 (date of incorporation) to 31st December 2016 in accordance with Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of Réviseur d'Entreprises agréé thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.
